LITERATURE and literary affairs

Here are entered general references to literature and literary affairs and papers of persons engaged in literary activities. References to literary figures outside the United States are also entered under the name of the country, e. g. Great Britain — Cultural affairs — Literature. References to English usage both as a language and literary form are entered under English language and literature, particularly in the case of teachers of English, where no distinction can be made between the language and the literature. This applies to other languages and literatures as well.

WOMEN'S organizations

This heading is used for references to women's organizations when evidence as to their nature was readily available either from their names or the contents of the collections. National organizations beginning with the words Woman or Women have not always been entered under this heading but will be found under the name of the organization. Local groups with such names have been entered here, subdivided by place. Additional women's organizations may be found under subjects with which the organization is concerned, e. g. Charitable work, Gardens and gardening — Societies, Women's suffrage; or under types of organizations such as Clubs, Fraternities and sororities, Missionary societies. Women's church groups have generally been entered under the name of the denomination and/or the heading Women — Church work.
